**FY 2004-08 STATEWIDE TRANSPORTATION IMPROVEMENT
PROGRAM**

New Jersey Department of Transportation Projects

<i>ROUTE/PROGRAM</i>	<i>Project ID No.</i>	<i>TIP No.</i>
Access Management	X153	X153

This is the Department's share of funding for highway improvement projects advanced as a result of development and redevelopment. These funds are to be used when the fair share financial contributions obtained from a developer pursuant to N.J.S.A. 27:7-91h are insufficient to implement the improvement. These improvements will encourage economic development and help create jobs.

New Jersey Department of Transportation Projects

<i>ROUTE/PROGRAM</i>	<i>Project ID No.</i>	<i>TIP No.</i>
Access Permit Application Review	X166	X166

The Department of Transportation has traditionally used consultants to assist in the review of access applications and on occasion to participate in the permit process to a greater extent. The Department has insufficient personnel to perform all of the work required within the time frames established by the Commissioner, law, and regulation. The timely issuance of access permits helps the State's economy by saving developers' carrying costs.

Advance Technology Emissions Reduction Program	02355	02355

Executive Order #94 established the Advanced Technology Task Force to define and assist in the implementation of initiatives to increase use of clean fuel and vehicle technologies. The Task Force is chaired by the Commissioner of Transportation, and its members are other state agencies. This program will collect data and match vehicle usage with alternative fuel sources, as well as to expand efforts to use hybrid electric vehicles. The program will initiate, but will not be limited to: hybrid electric shuttle buses; zero emission vehicles; safety upgrades at State vehicle repair facilities; alternative fuel use tracking systems for New Jersey MPO air quality conformity modeling; education programs to promote usage of clean fuels and repairs to environmental friendly vehicles; funding for incremental cost of advance technology and alternative fuel vehicles; outreach to promote private sector use of alternative fuel and advance technology vehicles.

GEOGIS Soil Boring Management System	03302	03302

The Department will complete the development of the GIS Geotechnical Database for the Soil Boring Management System. This effort will be federally funded. A pilot soil boring management system included approximately 250 soil boring logs and their associated soil boring location maps. There are approximately 60,000 hard copy soil boring logs and 1,000 soil boring location plans that remain to be processed. In addition, the remainder of the effort would include the ability to process digital soil boring location plans and soil logs directly from the soil boring contractors and add them to the system. The soil boring logs will be referenced in the State's GIS through GPS coordinates. The completed Soil Boring Management System will require an ongoing data entry of new soil boring logs and soil boring location maps.

Park and Ride/Transportation Demand Management Program	X28B	X28B

This is a comprehensive program of developing, implementing and evaluating a variety of statewide Transportation Demand Management (TDM) strategies that provide alternatives to single-occupant vehicle use, including planning, development, maintenance, and marketing of park and rides; Transit Village Program support; grants to counties and municipalities for local park and rides; park and ride leases; marketing of TDM options; bicycle and pedestrian marketing; support of statewide voluntary employee trip reduction and job access programs; and TDM solutions in a traffic mitigation or corridor management context. Additionally, this program includes the evaluation of the import of TMA/TDM strategies on air quality, traffic congestion, and the statewide transportation system. The types of TDM/TMA strategies which may be measured include rideshare information services, shuttle development and promotions, traffic mitigation support, Work First New Jersey support, employer services, and other demonstration or incentive programs in transportation demand management.

Public Lands Highways Discretionary Program	01344	013440

This is a source of federal funds to be used for various unanticipated public lands grants received through the FHWA Public Lands Highways Discretionary Program. The PLH funds are available for transportation planning, research, engineering, and construction of the highways, roads, and parkways, or of transit facilities within the Federal public lands. Eligible projects may also include the following, but must meet the public lands highway criteria: transportation planning for tourism and recreational travel; adjacent vehicular parking areas; interpretive signage; acquisition of necessary scenic easements and scenic or historic sites; provision for pedestrians and bicycles; construction and reconstruction of roadside rest area including sanitary and water facilities; other appropriate public road facilities such as visitor centers.

Federal FY 2002 appropriations allocated \$1,000,000 for the Delaware Water Gap National Recreational Area. Federal FY 2004 will allocate \$500,000 for the rehabilitation of Cemetery Road in the Morristown National Historical Park.

Region South Drainage Improvements (Rts. 40, 42, 206, 676)	02343	02343

The following drainage problems will be addressed through this project:

Route 40, Buck Road (MP 21.80)--The improvement includes construction of a new drainage system and stormwater infiltration basin along Route 40. In addition, Route 40 will be regraded, paved and curbing replaced.

Route 42, Maxine Avenue (MP 0.60)--The project will provide for reconstruction and upgrades to the existing drainage system, including new inlets and pipes as well as the replacement of existing culverts. The open channel will be regraded to provide stability to the roadway.

Route 206, Tuckerton Road (MP 12.75)--The improvements include raising Route 206 as well as grading and repair of all existing ditches. Existing drainage pipes will be replaced with larger pipes and additional outlets.

Route 676, Atlantic Avenue (MP 2.30)--This project will include reconstruction and upgrades to portions of the existing drainage systems. Also included will be construction of two stormwater management basins and addition of new inlets and pipes along Atlantic Avenue.

<i>ROUTE/PROGRAM</i>	<i>Project ID No.</i>	<i>TIP No.</i>
Survey Program, National Highway System	99367	99367

Under this program, survey work would be conducted on various highways on the National Highway System in New Jersey. This program will establish primary control for the length of each highway through GPS surveying by Geodetic Survey, as well as reestablish highway baseline and inventory by the respective field survey offices through a combination of GPS and conventional services. Also included will be monumentation of baseline where necessary; preparation of survey reports, documenting the methodology of the work; and importing information to GPS platform b the Geodetic Survey office or regional field survey office.

FY 2004-08 STATEWIDE TRANSPORTATION IMPROVEMENT
PROGRAM

New Jersey Department of Transportation Projects

<i>ROUTE/PROGRAM</i>	<i>Project ID No.</i>	<i>TIP No.</i>
TRANSMIT Program	00376	00376

TRANSCOM, a multi-agency coalition of operating transportation agencies in the metropolitan New York area, is deploying an Automatic Vehicle Identification (AVI) system, known as TRANSMIT, for traffic management and surveillance applications. TRANSMIT offers the ability to use vehicles equipped with EZ-Pass transponders to serve as vehicle probes within the traffic stream for traffic surveillance purposes. It requires the installation of readers (small 3-foot antennae) with the capability of identifying the vehicles equipped with EZ-Pass transponders, and measuring travel speeds at periodic intervals along the roadway.

Phase I and II were previously installed on major highways, mainly within New York state, through federal earmark money, and has successfully provided a surveillance system capable of detecting incidents. Phase III expands the system in New Jersey along Route 287, the New Jersey Turnpike, and the Garden State Parkway. The benefits of the system include the ability to track incidents for quick response, and provide real-time information to travelers over variable message signs and various media sources.

The FY 2002 federal appropriations provides \$2,500,000 from Intelligent Transportation Systems funds for this project.
